

# STAINED GLASS RAINBOWS

A KENT C. WILLIAMSON FILM EXPLORING THE BED WRESTLE BETWEEN HOMOSEXUALITY AND FAITH

## THE HORNET'S NEST AT THE END OF THE RAINBOW

FROM THE FILM'S DIRECTOR

*Stained Glass Rainbows* is a new film that explores the bed wrestle between homosexuality and faith. I've interviewed the left, the right, conservatives, liberals, & moderates. I've filmed at Gay Pride Parades as well as Gay Protests. I've talked with folks that believe people are born gay along with people who were once in gay relationships but through their faith have left it behind... so to speak.

Why this topic??? I believe this is one of the most controversial subjects facing the Church in America today. The majority of conservatives tend to want to keep their heads in the sand and pretend this issue will go away. Meanwhile, progressive denominations are not only embracing homosexuals, they are also ordaining them. The controversies surrounding Gay Marriage, Proposition 8, and the legal ramifications surrounding Lisa Miller's same-sex marriage child custody case are only proof of the volatility and timeliness for *Stained Glass Rainbows*.

*This issue is tearing churches apart. It's tearing denominations apart. And it's tearing families apart. Is there an answer? And if there is, what is it? Is homosexuality a great sin or merely a lifestyle-choice? What does a book written thousands of years ago have to say about it and should that have any relevance on us today?*

*Stained Glass Rainbows* explores the controversy, dives into the heart of the issue, and gets inside the hearts and minds of people of faith across the country. Keep an eye out for *Stained Glass Rainbows*... coming soon!

Kent C. Williamson, Director  
*Stained Glass Rainbows*
